

Caregiver Recruitment Incentive

Caregivers make the best recruiters! We know that there is a great need to recruit families to support foster youth in Southwest Ohio. We are asking that you share your experience with others and join us in recruiting families who can provide a safe home to vulnerable youth.

Remember, our mission is to improve the lives of children and to help them find permanency. Recruitment could be talking to someone about getting licensed to become a Foster/Adoptive Parent, talking to the neighbor who would make a great alternative care/ respite provider, or talking to that person from church who just wants to be a volunteer. There is something everyone can do to support youth in foster care.

Be the one that connects others to support foster care, it may be the moment that changes the life of a child forever.

Focus on Youth is offering the following incentives to currently licensed caregivers who help with recruitment. Caregivers will receive:

- A \$50 Stipend for each family that completes all the Pre-placement Training and was referred by you.
- A \$200 stipend for each family referred, that accepts the placement of a sibling group of three or more or any child aged 12 and older.

Help get someone signed up Today!
